

A seamless experience from purchasing to learning.

Clever and TE21, Inc.

We partner together to...

Streamline set-up and deployment

Through a direct integration with your SIS, Clever ensures application data is always current.

Protect your student data

Clever safeguards data through every step of the process, from your SIS to our application.

Return time to instruction

Students access all resources via the Clever Portal with a single username and password.

The right solution for districts—at no extra cost.

Clever's technology solves everyday challenges for districts, teachers and students worldwide.

Secure Sync

By connecting with your SIS, Clever Secure Sync auto-rosters your software. Secure Sync also lets you add new applications while eliminating entry errors and increasing student data privacy.

Instant Login

With Clever Instant Login, teachers and students get a seamless single sign-on experience and all their other learning applications - letting them focus on learning, not logging in.
