

Directions for Accessing Online Benchmark Assessments

1. Have your students navigate to www.masteryconnect.com/bubblesheet on a web browser.
Note: Bookmark this URL for easy repeated access.
2. Students will need their Student ID numbers. These can be found next to students' names in the tracker.

3. Give students the Test ID. To find the Test ID, go to your tracker and hover over the Black column (designating a benchmark test), then click on **Assess** from the drop down. Click on the **Assess** button above the standard bar to see the Assessment ID.
Note: You can change the Test ID to limit student access to the assessment.

The screenshot shows a grid of assessment options. An orange arrow points to the 'Assess' button above the first column. The grid has columns for standards 6.RP.A.1, 6.RP.A.2, 6.RP.A.3, and 6.NS.A.1, with rows for weeks 1 and 2. A pop-up window on the right displays the Test ID: 248019, a 'Generate new Test ID' button, and an expiration of 7 days.

4. Have your students enter the Test ID and their Student ID into www.masteryconnect.com/bubblesheet.

5. Students can take the assessment all in one sitting or use the pause button to save their progress and come back to it later. The browser will also save answers every few seconds automatically.
6. When your students are finished they will click on **Submit Answers**, click to confirm they are ready to submit, and see their results right on their screen. The score is also automatically entered into your tracker. For Benchmark Assessments, students will see the raw scores only and no mastery cutoff scores will be entered. Once the benchmarks have been scored by TE21, the mastery and near-mastery cutoff scores will be updated so that your tracker correctly reflects the student scores and progress.
